

I am writing regarding the possible loss of my local KLOVE station here in Albq. It is a unique and wonderful ministry unlike any others in our area. When so much of what we here on the radio today is crude or inappropriate for a family audience, I feel that KLOVE is a breath of fresh air. It would be devastating to the thousands of New Mexicans that rely on KLOVE to deliver inspiring music and an uplifting message. The public needs to have an option like KLOVE, they do so much more than play music. Thank you for your consideration in this matter. I love KLOVE and would be lost without it.
